

Christmas Gift Giving

Materials:

1. Paper
2. Crayons
3. Pencil
4. Scissors

Instructions:

- A. Print out this Christmas Present on paper.
- B. Using your crayons, color the present. You can draw stripes, dots, zig-zags, or create your own design; but **don't** color the tag!
- C. Grab your pencil and write your recipient's name on the tag – this is the person who will receive your gift – so that person will know you're giving this gift to them. (If you can't spell their name, ask the teacher for help!)
- D. Find your scissors and cut along the dotted line.
- E. Fold your gift inward, like a card, along the solid line in the middle.
- F. This is the best part: Think of the kindest thing you can say to your recipient. If you can't think of anything, you can use one of the ideas above, but you should first try to think of something on your own.
- G. Where is your pencil? Write your kind thought on the inside of your gift.
- H. Give your gift to your recipient. You are very kind!
- I. If someone gives you a gift, remember to say thank you!
